Oversight Of The Afghan National Budget Backtracks Over The Last Four Years, Survey Finds

21 Oct 2020

Photo Credit: Integrity Watch

To respond to the Coronavirus outbreak, a training workshop to collect information on health facilities was organized in mid-April this year in five provinces. This workshop is a part of an initiative by Integrity Watch to enhance the preparedness of health facilities to tackle this virus by providing necessary information to civil society, people and their communities, as well as to government and the international community policymakers.

The survey will cover Kabul, Balkh, Nangarhar, Herat, and Kapisa in its first phase and will be extended to the rest of the provinces in the next few weeks. Data on the quality of service delivery, capacity and condition, level of available resources, number of visitors – especially those with a confirmed or suspected case of COVID 19, number of personnel, observing social distancing guidelines, etc. is collected through a newly developed COVID App and uploaded to www.covid19.af on a real-time basis. The COVID App is developed by Vox Map a French start-up and the website is a joint endeavor of Integrity Watch and Vox Map.
